Effort expectations:

- We all plan to achieve an “A” in the class
- We will spend a minimum of 5 hours a week on lab work

Roles:

- Emily: coder, organizer, speaker
- Jiayin: writer, hardware assembly
- Zixi: circuit connection, sketch
- Shiran: hardware assembly, sketch
- We decided we will all be group leaders :D

Feedback:

- We will update each other on the progress we are making and the areas where we need the assistance of our teammates at our weekly regular meetings.
- We encourage direct and respectful communication with each other. If there are differences in opinions, everyone can raise the issues directly and discuss them together to find solutions.
- We will try to reach a consensus through discussions. If no agreement can be reached, then a vote will be conducted based on the principle of minority obeying the majority. If the votes are the same, then we will conduct a lottery.
- Every Friday meeting, we will review the areas where we did well and what needs improvement.

Signed: Jiayin, Shiran, Emily, Zixi
